Slipstream Folding Sailboat Propellers

Price per Unit (piece): [Call for Pricing](#)

Slipstream propellers are a high quality stainless steel propellers manufactured in Australia for use on all types of shaft drive and saildrive sailboat applications.

Slipstream propellers are now available in both two blade and three blade configurations and offer significant performance benefits for your yacht while under sail.

As our site is undergoing construction, please visit our manufacturers website at [Seahawk Australia](#) or contact us directly.
